

Radiant Kwick Wax

Technical Bulletin - DP533

Features:

- ◆ Solvent free
- ◆ Dust and streak free
- ◆ Compliant formula
- ◆ Apply by hand or machine
- ◆ Deepens dark colors

Product Description:

Radiant Kwick Wax is formulated for use in vehicle reconditioning and new car preparation. Kwick Wax features a unique water based protection system that exceeds all CARB//OTC VOC restrictions yet performs like other solvent based formulas.

Product Benefits:

Radiant Kwick Wax is easy to apply by hand, spray or orbital machine. In all applications, Radiant Kwick Wax is virtually dust free and leaves a superior shine. Radiant Kwick Wax is streak free (no solvents) and will aid in the protection of your vehicle's finish from harmful airborne contaminants. Deepens dark colors, high gloss, works well on chrome and glass.

Directions:

Shake product prior to use. Wash vehicle prior to product application if necessary. Always use on a clean, cool paint surface. Apply a light thin coating of Radiant Kwick Wax to the paint surface, using a spray or wax applicator, orbital polisher or DA foam pad. Allow product to dry 2 minutes or until light haze appears. Remove Radiant Kwick wax with cotton or microfiber towels or an orbital buffing pad. Final wipe to a bright finish.

Packaging:

Gallons
