Triple S Dressing

Technical Bulletin - DP549

Features: Non-Silicone, Low V.O.C. Compliant Dressing

- ◆ Body Shop Safe
- ◆ Works Great on Rubber and Vinyl
- ◆ Brightens Door Jams and Underbody Areas such as Fender Wells
- ◆ Self-Leveling
- ◆ High Gloss

Product Description:

Triple S Dressing is a body shop safe, low V.O.C., non-silicone high gloss dressing that works well on rubber and trim surfaces, such as tires, moldings and mud flaps. It is an easy to apply self-leveling dressing.

Product Benefits:

Triple S Dressing is a versatile product and can be applied by spraying, brushing or using a sponge applicator on the desired surface. It is a long-lasting, silicone-free exterior dressing that performs remarkably well and is a great solution for paint shops concerned about silicone and V.O.C. contaminants.

Directions:

Apply to a clean and dry surface. For ultimate gloss and durability, final wipe the protected surface with damp towel. Triple S Dressing reflects a satin high gloss finish on most rubber surfaces. As with all protectants, staining may occur on freshly painted exterior and interior plastic panels. Towel off excess dressing to eliminate splatter or sling.

Packaging:

Gallons
