## Professional Dress All

### Technical Bulletin - DP244

#### Features:

- ◆ Safe on All Vinyl, Leather and Rubber
- ◆ Cleans Lightly Soiled Surfaces
- ◆ Restore Resiliency to Weather Strips
- ◆ May Be Applied to Damp Surfaces
- ◆ Produces an OEM Look on Interior Surfaces
- ◆ Cleans Up Easily

#### Product Description:

Professional Dress All is a thin, milk-colored, silicon emulsion, water-based dressing that restores all vinyl, leather and rubber surfaces. Professional Dress All can be applied as a spray and/or wiped on with a towel or sponge.

#### Products Benefits:

Professional Dress All is excellent for repairing the luster of old vinyl, leather and rubber surfaces. Professional Dress All helps restore the softness of these surfaces, making them flexible, which reduces the appearance of cracking and wear. Professional Dress All may also be used to dress engines and visible underbody areas for a detailed look.

#### Directions:

Apply Professional Dress All to the vehicle and wipe with a clean cloth to reach desired shine. Use multiple applications for a higher shine. On tires, there is no need to wipe away if spray pattern is even.

Tip: When using in a silicone sensitive environment, do not spray, instead, use a mustard style squeeze bottle to dispense.

#### Packaging:

Quarts  
Gallons  
5 Gallons  
Drums
